B.Tech | Charusat University, Changa | Information Technology

EDUCATION

Degree / Certificate	Institute / Board	CGPA / Percentage	Year
B.Tech (IT)	Charusat University, Changa	Sem 1: 7.49 Sem 2: 7.55 Sem 3: 6.66 Sem 4: 7.36	2024 – 2028
Higher Secondary (Sci.)	The National High School	88%	2022 – 2024
10th Secondary	Amrita Vidyalayam	82%	2021 – 2022

PROJECTS

Supply Chain Demand Forecasting [GitHub](#)

Personal Project | Python, pandas, scikit-learn, NumPy, Matplotlib (In Progress)

- Building an ML pipeline to forecast demand across a supply chain, reducing stockouts and excess inventory costs.
- Cleaning and engineering features from historical sales and inventory data for model input.
- Training and comparing time-series and regression models to predict future demand.
- Evaluating model accuracy using MAE / RMSE to select the best-performing approach.
- Visualizing demand trends and forecasts to surface inventory-planning insights.

The Sonic Immersive — Music Player [GitHub](#) | [Live Demo](#)

Personal Project | React 19 + TypeScript, Node.js, Express, Tailwind CSS, Framer Motion, Vite | Deployed: Vercel (frontend) · Render (backend)

- Built a premium Hi-Fi music player with a decoupled full-stack architecture; frontend on Vercel, backend API server on Render — zero API key required.
- Implemented full-length audio streaming via a custom YouTube-DL backend proxy with zero-lag preloading that pre-resolves audio URLs for gapless playback.
- Integrated a multi-provider lyrics lookup system with dynamic fallback to Google Search, and live search using the iTunes Search API for track metadata and cover art.
- Pulled trending tracks dynamically from Apple Music's Most Played RSS feed; built shuffle, repeat, and comprehensive queue management.
- Designed a fully responsive UI with TailwindCSS and Framer Motion — works seamlessly on mobile, tablet, and desktop.

Resume Analyzer and Enhancer [GitHub](#)

Web Application | HTML, CSS, JavaScript, Bootstrap, PHP, MySQL, Git

- Built a web application that analyzes uploaded resumes, identifies technology gaps, and surfaces skill requirements for candidate profiles.
- Implemented resume parsing to extract and evaluate technical skills; designed a responsive Bootstrap + custom CSS frontend for a seamless UX.
- Used Git and GitHub for version control and collaborative development workflows.

TECHNICAL SKILLS

Languages : C, C++, Python, JavaScript, TypeScript, HTML, CSS, SQL

Frameworks / Libraries : React.js (v19), Next.js, Node.js, Express.js, Bootstrap, Tailwind CSS, Framer Motion, Vite, Lucide React

Data Science / ML : pandas, scikit-learn, NumPy, Matplotlib

Backend / Database : PHP, MySQL, MongoDB

Deployment & DevOps : Vercel, Render, Git, GitHub, VS Code

APIs & Integrations : iTunes Search API, Apple Music RSS, youtube-dl-exec, yt-search, Lyrics APIs

CERTIFICATIONS

Microsoft Certified: Azure AI Fundamentals (AI-900) — Microsoft Certificate
